

## 1919 the Banner Building Year

There is every reason to believe that 1919 will witness more building and construction work than ever before seen in a single year of our national history.

Now, Mr. Farmer, get busy. Make life on the farm attractive for your boys, by erecting new buildings.

Come in and let us have a heart to heart talk. Suppose you are figuring on building a dwelling or even a chicken house. I will tell you how much lumber to use, specify the price (even furnish plans if desired) and be all the service possible.

Remember, I am headquarters for Building Material of all kinds and am in position to save you money on anything in that line.

If you are not acquainted with this law and want to learn what is best for you, attend this meeting and hear every point discussed.

**PERIODIC BILIOUS ATTACKS.**  
Persons subject to periodic bilious attacks will observe that their appetite fails them just before an attack. That is, they do not really crave food but eat because it is meal time. It they will eat only a light meal and no meat, then take two of Chamberlain's Tablets the attack may be avoided.

Washington, Feb. 22.  
The Wheat Guarantee bill, authorizing the President to use existing agencies or create new one to buy wheat of the 1918 and 1919 crops at the Government guaranteed price and dispose of it at market prices, was passed to day by the House by a vote 277 to 15.

Just before adjourning last night the House adopted amendments changing the date of expiration of the Government's guarantee from October 15, 1920, to June 1, 1920, and giving the President authority to prohibit wheat exports should unfair tactics be used to force down the price.

The measure, which carries an appropriation of a billion dollars, was passed with only two important amendments, one changing the date when the act shall cease to be effective from October 15, 1920, to June 1, 1920, and

the other giving the President greater authority in restricting importations of wheat to protect the Government from undue loss. The President is given blanket authority to provide all the machinery for handling the wheat from the time it is purchased from the farmer until sold to the consumer, with control over millers, wholesalers, jobbers and bakers, importers, manufacturers and exchanges.

**DOLLARS AND CENTS.**  
Counting it only in dollars and cents, how much did that last cold cost you? A man may not always stop work when he has a cold, but perhaps it would be better if he did. It takes about ten days to get rid of a cold under the usual treatment. That time can be much shortened by taking Chamberlain's Cough Remedy and proper care of yourself, in fact, a bottle of this remedy in the house is a mighty good investment during the winter and spring months.
